

Statistics: Collecting Data - Quiz

1. According to the lesson, what is the very first step in the 'art of statistics'?

☐ Catching the thief

☐ Making a guess

☐ Drawing a map

☐ Collecting data

Statistics: Collecting Data - Quiz

1. According to the lesson, what is the very first step in the 'art of statistics'?

☐ Catching the thief

☐ Making a guess

☐ Drawing a map

☒ Collecting data

Correct (+1)

The source material explicitly defines statistics as an art starting with the gathering of necessary information.

Statistics: Collecting Data - Quiz

2. What specific treasure was reported missing from the Alexandria Museum?

☐ An Ancient Egyptian Sarcophagus

☐ The Alexandria Library Scroll

☐ The Golden Star of Alexandria

☐ The Silver Compass

Statistics: Collecting Data - Quiz

2. What specific treasure was reported missing from the Alexandria Museum?

☐ An Ancient Egyptian Sarcophagus

☐ The Alexandria Library Scroll

☒ The Golden Star of Alexandria

☐ The Silver Compass

Correct (+1)

This is the primary artifact identified as stolen in the dialogue between Yasmeen and the robot.

Statistics: Collecting Data - Quiz

3. How does the source material define 'collecting' in the context of data?

- ☐ Organizing files into a neat stack
- ☐ Finding clues with a magnifying glass
- ☐ Gathering the information we need
- ☐ Interviewing only the guards

Statistics: Collecting Data - Quiz

3. How does the source material define 'collecting' in the context of data?

- ☐ Organizing files into a neat stack
- ☐ Finding clues with a magnifying glass
- ☒ Gathering the information we need
- ☐ Interviewing only the guards

Correct (+1)

The definition provided in the text equates collecting with the process of gathering necessary information.

Statistics: Collecting Data - Quiz

4. Why did Detective Yasmeen tell the robot that the Harbor was just a 'guess'?

- ☐ Because the thief definitely went to the Old Tower
- ☐ Because it was the furthest location on the map
- ☐ Because there was no information or evidence for it yet
- ☐ Because the robot's map was upside down

Statistics: Collecting Data - Quiz

4. Why did Detective Yasmeen tell the robot that the Harbor was just a 'guess'?

- ☐ Because the thief definitely went to the Old Tower
- ☐ Because it was the furthest location on the map
- ☒ Because there was no information or evidence for it yet
- ☐ Because the robot's map was upside down

Correct (+1)

The lesson emphasizes that a guess lacks the supporting information that constitutes real evidence.

Statistics: Collecting Data - Quiz

5. What is the definition of 'evidence' provided in the lesson?

☐ The testimony of a museum guard

☐ A badge worn by a detective

☐ Information of real-life events

☐ A trail of glowing blue light

Statistics: Collecting Data - Quiz

5. What is the definition of 'evidence' provided in the lesson?

- ☐ The testimony of a museum guard
- ☐ A badge worn by a detective
- ☒ Information of real-life events
- ☐ A trail of glowing blue light

Correct (+1)

The source explicitly states that information serves as evidence for things that have actually occurred.

Statistics: Collecting Data - Quiz

6. In the story, Detective Yasmeen collects logs from the last how many nights?

☐ 1 night

☐ 30 nights

☐ 14 nights

☐ 7 nights

Statistics: Collecting Data - Quiz

6. In the story, Detective Yasmeen collects logs from the last how many nights?

☐ 1 night

☐ 30 nights

☐ 14 nights

☒ 7 nights

Correct (+1)

Yasmeen specifically asks the guards for the records covering the last 7 nights of activity.

Statistics: Collecting Data - Quiz

7. Which of the following was NOT a problem with the data (logs) Yasmeen received?

☐ The handwriting was illegible

☐ Some were upside down

☐ Some were covered in tea

☐ The records were messy

Statistics: Collecting Data - Quiz

7. Which of the following was NOT a problem with the data (logs) Yasmeen received?

☒ The handwriting was illegible

☐ Some were upside down

☐ Some were covered in tea

☐ The records were messy

Correct (+1)

While the records were messy, upside down, and stained with tea, the source never specifically mentions illegible handwriting.

Statistics: Collecting Data - Quiz

8. What advice does Yasmeen give for understanding a large amount of information?

☐ Always trust your first guess

☐ Ask a robot to calculate it

☐ One step at a time

☐ Ignore the messy parts

Statistics: Collecting Data - Quiz

8. What advice does Yasmeen give for understanding a large amount of information?

☐ Always trust your first guess

☐ Ask a robot to calculate it

☒ One step at a time

☐ Ignore the messy parts

Correct (+1)

Yasmeen suggests a methodical, incremental approach to processing the complex data they gathered.

Statistics: Collecting Data - Quiz

9. If statistics is an 'art' consisting of multiple actions, which action is the primary focus of Lesson?

☐ Action 7: Final Conclusion

☐ Action 2: Organizing data

☐ Action 5: Drawing Graphs

☐ Action 1: Collecting data

Statistics: Collecting Data - Quiz

9. If statistics is an 'art' consisting of multiple actions, which action is the primary focus of Lesson?

☐ Action 7: Final Conclusion

☐ Action 2: Organizing data

☐ Action 5: Drawing Graphs

☒ Action 1: Collecting data

Correct (+1)

The lesson repeatedly identifies 'collecting data' as the first step and the focus of the current session.
